domestic & commercial guttering, underground and soil systems

## Deep Guttering in Anthracite Grey

The new Kayflow Anthracite Grey gutter system is an ideal combination of a high capacity domestic system and a colour that is very much in demand.

Kayflow Deep gutter has a tested flow rate of 1.8 litres per second and takes a 68mm downpipe. The new colour, Anthracite Grey (RAL7016), is a match for window, door and fascia systems with the same colour reference.

KM 508760

Anthracite Grey colour reference = AG
